

For security purposes on uses of FTB's internet banking facilities, Card and eBanking Department would like to propose the password rules and the tips to secure the password as follows:

- should contain:
 - eight or more
 - at least one number
 - at least one uppercase
 - at least one lowercase
- is case-sensitive (A is different from a)
- may contain symbols (` ~ ! @ # \$ % ^ & * () _ + - = { } | [] \ : " ; ' < > ? , . /)

Tips to secure user password:

- The longer the password length the better.
- No spaces or non-English languages.
- No common words or names.
- Don't write down the password, or share it with anyone else.
- Change the password regularly.
- Avoid repeating passwords that had been used.
